

Act TravelWise

WELCOME!

**UK SUMP Network Event
Friday 18 March 2016
Smarter Travel 2016, Milton Keynes**

This workshop is for anyone who wants to:

- learn more about Sustainable Urban Mobility Plans (SUMP),
- learn from UK and European best practice, and/or
- network with others on the topic

The English/Welsh LTP is a form of SUMP, defined as "a strategic plan designed to satisfy the mobility needs of people and businesses in cities and their surroundings for a better quality of life. It builds on existing planning practices and takes due consideration of integration, participation, and evaluation principles".

Attendees are welcome to join an informal UK network on SUMPs which has been formed as part of [ENDURANCE](#), a three-year European project involving 25 countries.

The project offers opportunities:

- to network on LTP/SUMP matters with 20 local authorities in the UK
- to learn from best practice in other countries
- to showcase and share your own best practice with other countries
- to train others in LTP/SUMP development and implementation
- to meet potential partners for future funded European projects

Related European conference:

- 3rd European Conference on SUMP, 12-13 April 2016, Bremen, Germany

ENDURANCE answers to the IEE-call:

to “assist cities and regions with developing SUMP’s by facilitating networking, mutual learning and sharing of experience and best practise across countries”.

and will provide:

- the development of 25 national networks
- a sophisticated cross-country, Europe-wide, training, workshop and policy exchange programme
- the expertise and infrastructure of EPOMM, of 3 city networks and of very experienced partners
- the promise of building up structures and networks that will *endure* well beyond the end date of the project guaranteed through EPOMMs existing structures

ENDURANCE: EU-wide establishment of enduring national and European support networks for sustainable urban mobility

ENDURANCE IN A MINUTE

ENDURANCE aims to assist cities and regions with developing Sustainable Urban Mobility Plans (SUMPs) by facilitating networking, mutual learning and sharing of experience and best practise across countries.
